5.37g/L

Through the heart of Sonoma:

For anyone who has visited Sonoma's Wine country, they will know that Sonoma Highway rolls right through the heart of Sonoma Valley from the town of Sonoma north through some of California's most prestigious vineyard properties. Our Sonoma Highway wines represent the best qualities of this world class wine growing region.

Great vineyard selections:

Since we are so deeply embedded into the Sonoma community, we have lots of friends with vineyards to partner with. This allows us to source fruit from some of the regions most iconic vineyards and produce outstanding wines that reflect the Sonoma vineyards from where they are grown.

Tasting Notes:

This anytime sipper has always been a staple for the Sonoma Highway portfolio. The 2023 is youthful and bright with its clean, citrus-zested nose. Round and fruity, yet refined. Mid palate notes of green apple with a slightly lingering tropical fruit finish.
