13.5%

**PH Level:**  
3.44

**Titratable Acidity:**  
5.37g/L

### **Through the heart of Sonoma:**

For anyone who has visited Sonoma's Wine country, they will know that Sonoma Highway rolls right through the heart of Sonoma Valley from the town of Sonoma north through some of California's most prestigious vineyard properties. Our Sonoma Highway wines represent the best qualities of this world class wine growing region.

### **Great vineyard selections:**

We are fortunate to call our growers friends. This vital connection with generations of vineyard stewards gives us access to 'pocket' vineyards all over Sonoma Valley. This Sauvignon Blanc comes from the southern end of the Sonoma Valley near the historic unincorporated community known as Vineburg dating back to the 1870's. A cooler climate here, grapes enjoy longer, cooler sunny days leading to perfect balance in fruit complexities and acidity.

### **Tasting Notes:**

This anytime sipper has always been a staple for the Sonoma Highway portfolio. The 2023 is youthful and bright with its clean, citrus-zested nose. Round and fruity, yet refined. Mid palate notes of green apple with a slightly lingering tropical fruit finish.
